

WSBC 2021 EQUIPMENT REQUIREMENTS/ RECOMMENDATIONS

Please refer to the list below for the equipment and services necessary to participate in the WSBC 2021 meetings.

REQUIREMENTS

- Platform:** Zoom, latest version (currently 5.5.2 or later). Sign into your Zoom account, click on your profile picture, then click Check for Updates.
- Computer:** Desktop or laptop. We do not recommend mobile devices (phones, tablets) because these have limited functionality within the Zoom platform.
- Internet:** Either broadband wired or wireless. 4G/LTE lowest speed required if broadband is unavailable.
- Operating System:** macOS X with macOS 10.9 or later OR Windows 7 to 10.
- Browser:** Internet Explorer 11+, Edge 12+, Firefox 27+, Chrome 30+, or Safari 7+.
- Camera:** Built-in webcam or USB plug-in.

RECOMMENDATIONS

- Internet:** Better connectivity is guaranteed if your computer is setup in the same room as your modem and router. A wired connection is preferred for a more stable connection.
- Headphones:** Built-in microphone. This will ensure the best possible audio for listening and speaking.
